

“Where East
Meets West”

Bellingham & grandchildren

Another good, but small rally at Bellingham. Over the last week end a number of us, braved the Fridays weather and headed for Bellingham. Yes it did rain on Friday, but the rest of the weekend was kind to us. We had 7 rigs in attendance and 2 day visitors in Sam & Barbara Mackrill plus Peter Harley.

This was our annual Grandchildren's weekend and whilst we only had 7 children present they all had a wonderful time. This was our third weekend of this type and it was great to hear the kids mentioning each others names, in some cases before they even got to the rally to see who was there. With a lesser number of children attending it was obviously easier to handle, but Sharon and her other helpers as usual looked after those participating. A top effort and some good memories for not only the kids, but for those members attending as well. The slippery slide entertained us all, swimming at the beach was similarly good for all who participated. The “kids” luncheon was enjoyable - yes by the adults present as well!! Another successful outing. A Committee meeting was held on Saturday morning-points raised elsewhere in this Communiqué. Don M President
