December 2011 - Lebrina & AGM

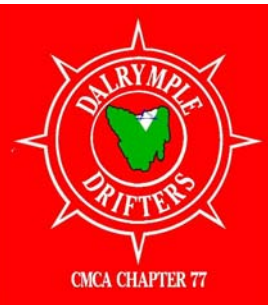

A little late in getting our December 2011 newsletter out –for that my apologies. I am determined to get this out before the New Year along with our meeting/rally program for 2012.

December saw us at Lebrina for the first time for our annual Christmas Dinner and also our AGM. This venue has been used by other Chapters in Tassie and I'm sure we were pleased we went there. The Christmas Dinner was welcomed by all and I heard many praises for the home cooked meal that we all enjoyed. (and plenty of it too!!) We had a great roll up for the actual rally and it was great to see Mike Brown and his daughter along for the rally (Saturday) and meal. Great to see you Mike and we look forward to seeing you again during 2012. The majority of our members who attended rocked up on Friday (Des & Jacqueline Thursday) with the remainder coming in on Saturday morning. Lebrina is not far from Launceston and/or George Town and very close to Pipers Brook where we have enjoyed previous rallies at the Pipers Brook Fire Station.

We are on the look out for some more venues for 2012 and you will note from the calendar attached to this Communiqué that we need a couple to complete our venues for 2012.

So lets put on our thinking caps and come up with some so that they can be promoted well before, in an effort to have you (and others) come along & enjoy.

This is the 70th Issue of the Communiqué since we started in Jan 2006 and I believe it has been a good tool for internal communications—it also goes onto our web site so others can also view it and see what we are up to. Till 2012 – all the best for the New Years celebrations. Don M Chapter President

TCCR - February 2012—update

At the time of this Communiqué I have received 193 bookings with 53 coming from the mainland. Our aim is for 200 bookings. So hopefully with approx 5 weeks to go we should achieve that.

It would be appreciated, if any DD member that is available could come in on the Wednesday 8th Feb (from 10am) to assist with the setup and to be allocated to positions for Thursday. Predominately we will have Admin, sighting/parking, meet & greet, first aid, members engaged in tasks. We will also be having paid Security Officers from 9pm to 5am Thursday to Monday night. We will need to cover the day times and also the Wednesday night. Some members from other Chapters will also be coming in on that day as well. So our security theme will need to be - "**Lock it our lose it**" as with some other TCCR's the site does have a public walkway and we can't stop persons from walking through. That has not been similar to Latrobe, Rosny over the years to name a few.

At this stage subject to budget blowouts, which I don't think will happen, we should be able to donate a reasonable amount to the Holman Clinic, which we nominated as our major sponsor. That donation will be on behalf of the "Tasmanian Combined Chapters CMCA".

RACT Travelworld have donated \$450 for the Disc Bowls Competition which will purchase (for the first time) disc bowl medallions (and they look pretty snazzy) for the TCCR. They have also agreed to donate a similar amount for the next three years TCCR's -so the competition will be known as the RACT Travelworld TCCR Disc Bowls Competition. (other Chapters have supported this approx)

Every Batteries from Launceston have donated \$250 towards our Farewell BBQ- so on that basis we have called it "The Every Batteries Farewell BBQ" -basically a sausage sizzle with bar facilities and entertainment (Monday night)

Barry Whitmore has arranged with the Invermay Bowls Club to provide refreshments and meals (at a good price). This (menu) will be included in the "hand outs" as members check in. And lets not forget the Launceston Festivalle opens on Friday 4pm from memory.

Glenn Nichols has finalized our entertainment, but we need (as the host chapter) to get our act together re skits/talent quest night. The entertainment will be great and we should look forward to getting our fellow members along-it will be conducted in the Round House. A copy of the ground layout and the draft program (at the time of this issue) is included for your information.

Grey water will be able to be released onto the ground (for those on a grassed area) but we must indicate that a hose needs to be connected to the outlet and it be moved around during the days of the rally, so that there is not a large puddle developed by the grey water tank outlet. Rigs located on the hard standing will be required to empty their grey water into buckets and then into the dump point which is relative close by.

Black water is the responsibility of each member - a dump point is close by-refer map of ground layout. We will not be providing a "honey run".

Movement on/off ground. Every effort will be required to keep this to a minimum. Some members are coming in Friday and need to get out on Sunday. We will locate them so this can be achieved with a lot of difficulty- most likely this will mean they will not be located in the major sighting area.

In unsure of anything or you feel I have missed anything, please don't hesitate to contact me
